Interim Planning Manager Selected

The City of Gilroy has announced that David Bischoff will fill the role of Interim Planning Manager in the Community Development Department. David retired from the City of Morgan Hill several years ago after serving as Morgan Hill's Community Development Director for many years. David will help fill the void for this important position created when long-time Planning Manager Bill Faus retired this month after 26 years of service. Additionally, Community Development Director Wendie Rooney has accepted a position with the Town of Los Gatos as their Community Development Director. Her last day at the City of Gilroy will be March 6th.

David will work part-time as a Planning Manager with primary focus on the planning function, to ensure that the needs of customers are met and also address other planning related mandates. His many years of experience and familiarity with the south county will allow him to hit the ground running and will provide Gilroy a leg up on many south county related activities. David will work with Wendie to ensure a smooth transition.
