

FIGHT F.O.G.™

**Keep Fats, Oils & Grease
Out of Your Drain!**

Mantenga las grasas y aceites
fuera de la boca del drenaje.

(More on back)

F.O.G. Clogs Pipes

Follow these simple steps to help prevent sewer backups:

- 1.** Pour cooled fats, oils and grease into a covered, disposable container and throw it into your garbage. Never pour fats, oils or grease down sink drains or toilets.
COOL IT, CAN IT & TRASH IT.

Coloque grasas y aceites frios en un recipiente desechable y con tapa y tirelo a la basura. Nunca tire grasas en el drenaje de su casa.

- 2.** Soak up remaining fats, oils and grease with an absorbent material such as paper towels and dispose into your garbage.

Remueva la grasa y los aceites restantes con un material absorbente como toallas de papel y tirelo junto con su basura.

- 3.** Before you wash dishes, scrape food scraps, fats, oils and grease into your garbage.

Antes de lavar los trastes, tire los restos de alimentos, grasa y aceites en la basura.

- 4.** Use sink strainers to catch any remaining food waste while washing dishes.

Utilice coladores para fregadores al lavar los trastes para atrapar los restos de la comida y grasas.
