DESCRIPTION

- 7a. Architectural style: Queen Anne
- 7b. Briefly describe the present *physical appearance* of the site or structure and describe any major alterations from its original condition:

This site is a large rambling two story wooden structure constructed on an irregular plan and designed in a very stripped Queen Anne Cottage architectural style. The building is actually a joining of two separate residential forms: a steeply hipped square box house with an equally steeply pitched "L" plan wooden house. Composition shingles sheathe the roof planes. Large ship lap siding sheathes the exterior walls. Molded cornices, plain friezes and plain end boards further define the exterior walls. Patterned shingles accent the gable faces. Brackets frame the angled bay on the street facade. A small shed roof covers a wrap around front porch which is supported by squared posts. Fenestration is very simple, rectangular in shape, vertically-oriented and double hung. Molded window heads further accentuate the window forms. The structure is set on a lot which is overgrown with mature landscaping. A detached garage is located behind.
