Construction Waste Management Plan

Construction Waste Management (CWM) Plan

Beginning January 1, 2019, waste diversion requirements have been updated to comply with the 2019 California Green Building Standard Code. Newly constructed buildings and demolition projects shall divert from landfills at least 65% of the construction materials generated during the project. All additions and alterations to non-residential and residential buildings or structures shall divert from landfills at least 65% of nonhazardous construction and demolition materials.

Note: A construction waste management plan must be submitted to the Building Department prior to permit issuance.

Project Address: _____

Permit Number: _____

Project Manager: _____

WASTE MATERIAL TYPE	REUSE	RECYCLE	DISPOSAL	HAULER	MATERIAL DESTINATION
Asphalt					
Concrete					
Shotcrete					
Metals					
Wood					
Rigid insulation

Plastic					
Hardiplank siding and boards					
Glass					
Pallets					
Job office trash, paper, glass & plastic bottles, cans, plastic					
Alkaline and rechargeable batteries, toner cartridges, and electronic devices					
Other:					
Sample: Metal		X		Self	Pacific Coast Recycling

Construction Waste Management Acknowledgment

- Save ALL weight receipts from jobsite waste materials that were hauled away for reuse, recycling or disposal.
 - Final Report must be submitted to the Building Division prior to Final Inspection. Final Report must include all hauling weight tickets/receipts.
 - Notify ALL subcontractors of the project's waste management plan.
- I understand that 65% of the waste material from this project must be recycled.
- I will save all landfill and recycling center weight receipts from hauling construction and demolition debris.
- I will put forth a good faith effort to ensure that a minimum of 65% of the debris from this project will be recycled.
- I will submit a Final Report with weight receipts to the City before scheduling the final inspection.
